

# TERTEK® Digital antennas

TERTEK® is designed for installation on Houses, Boats, Campers and Caravans.

With its many installation options, TERTEK® will always allow for optimal installation for signal reception and be a durable and stylish antenna solution now and in the future.

## WORLD PREMIERE!

### TERTEK® DAB+/TV AND INTERNET MIMO COMBINED IN ONE ANTENNA

- DVB-T2, HEVC, DAB+, 2G/3G/4G/5G/LTE MIMO
- Specifications as TERTEK® DAB+/TV and Tertek® Internet MIMO

#### TERTEK® DAB+/TV

- Optimised antenna element for reception of vertical and horizontal signals, which also makes the antenna truly mobile and allows reception from both main and auxiliary transmitters.
- With its Top-Close system on the mast, TERTEK® protects the rooflead-in by closing all the way down to the roof, with a transport height of just 120 mm.
- Antenna is protected from the new mobile network 5G/LTE and Tetra, so you are also ensured the best antenna solution in the future.
- Comes with two-output power supply, allowing splitting to multiple end-user plugs.

#### SOLUTIONS:

#### COLOURS:

#### TERTEK® INTERNET MIMO

- 2G/3G/4G/5G LTE Internet antenna. TERTEK® Internet MIMO is a multiband omnidirectional Internet antenna with a unique design.
- TERTEK® Internet MIMO is a mobile external antenna that is UV-resistant and connects easily to a router or modem, with the option of mounting two external antennas and a SIM card with data.
- MIMO means there are two antennas, each with its own cable.
